Title: Nurse Midwife
Posting Number: S_56
Posting Date: August 25, 2025
Reporting to: Nursing Superintendent
Grade Level: S1
Application will be accepted up to September 5, 2025

Firestone Liberia is looking for a **Nurse Midwife** whose role will be to uniquely combine the expertise of a registered nurse with the specialized skills of a midwife, offering a holistic approach to women's health, pregnancy, childbirth, and postnatal care. As a Registered Nurse (RN) Midwife, you will blend advanced nursing skills with expertise in midwifery to provide holistic care to women and their families.

Responsibilities

- Giving bedside care for patients and conducting regular rounds with doctor.
- Writing daily progress reports on patients as well as Identifying high-risk pregnancies.
- Assessing and identifying patient's needs, then implement and monitor the patient's medication plan and treatment.
- Providing full antenatal care, including parenting classes, clinical examinations, and screening.
- Monitoring women and support them during labor and the birthing process.
- Teaching new and expectant mothers how to feed, care for and bathe their babies.
- Obliging to provide comprehensive and compassionate end-of-life care.
- Recognizing patient's symptoms and take measures within the nurse-midwife scope of practice.
- Administering medications to patients.
- Collaborating with other professionals to optimize patient's comfort and families (whoever the patient defines to be) understanding and adaptation.
- Following company policies, including safety at all levels.
- Leading midwives and patient's aides during duty.
- Attending ward and general meetings of the health facility.
- Upholding the hospital's policies, procedures, and ethical standards, and compliance with healthcare regulations.
- Adapting to new healthcare technologies and systems, including Hospital Management System, to enhance patient care and operational efficiency. This role requires flexibility to accommodate changes in workflow
- Performing all duties & responsibilities as required by the Hospital Information Management Systems (HIMS).
- Performing other duties as assigned by the ward supervisor, and or Hospital Management Staff

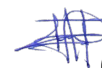

QUALIFICATIONS

- **Education:** Must hold an advanced nursing degree from an accredited program and an unencumbered RN license from the Nursing Board of the state.
- **Experience:** 2-3 years of experience working as a Registered Nurse Midwife in a hospital.
- **Skills:** Competency in skills related to women's health, providing reproductive care, assisting with delivery, caring for newborns, treating sexually transmitted diseases and computer Literacy.
